

Appendix A: Application Execution Guide

Full step-by-step process to run the RBAC Bot in UI mode:

Step	Command / Action	Expected Outcome
1	Open CMD and navigate: cd D:\Chatbot\rbac_bot	Working directory set
2	Run server: python server.py	Server starts at localhost:5050
3	Open file: rbac_ui.html in browser	UI loads in browser
4	Access URL: http://localhost:5050	App ready to accept queries
5	Enter query in UI	Response displayed

CLI Mode

Run chatbot in terminal mode:

```
python main.py
```

Direct Query Mode

Execute single query:

```
python main.py "why investigation tile not visible"
```

Appendix B: Sample Queries and Engine Flow

Query	Intent	Engine	Response Type
I cannot create dispute	troubleshooting	rule_engine	Checklist response
Investigation not visible	troubleshooting	rule_engine	Validation steps
Role required for disputes	access	qa_engine	Role mapping
Notification issue	troubleshooting	rule_engine	Config checks

Appendix C: Request Processing Flow

User → UI → server.py → main.py → intent_engine → qa_engine/rule_engine → response → UI

Appendix D: JSON Structure

```
{ "question": "example", "synonyms": ["ex1","ex2"], "answer": "response" }
```
